💼 RELEVANT EXPERIENCE

Software Development Engineer IV @ WazirX — *India's biggest Crypto Exchange*

May 2021 - Present | Remote

- Architected and implemented the much-awaited **dark theme** for the WazirX website using CSS Variables and Design Tokens, standardizing the color palette across 450+ files, and adding WebView support for mobile integration.

- Implemented the **unit testing architecture** to increase the unit testing coverage from 0% to 50% (in the MVP rollout), of the entire web suite.

- Developed and shipped the much-awaited **portfolio** feature and **WazirX OTC**, a dashboard for high-volume, VIP traders. Contributed extensively to an upcoming **Web3 application** (Web3js + VueJs).

- Developed **Crypto Returns Calculator** (NextJs), a highly interactive widget that can be embedded in any website, and promotes the exchange. It is deployed on some major news channels.

Open Source Contributor @ Shardeum — *L1 Blockchain Project*

Mar 2022 - June 2022 | Remote

- Collaborated with a small team of designers and developers in an open source model to develop the main **Shardeum website** in NextJs.

Sr. UI Developer + Design Manager @ LogiNext — *Logistics management software*

June 2016 - October 2020 | Mumbai

- Designed and developed LogiNext LIVE; a highly interactive interface for all logistics' **real-time tracking** and ad-hoc operations which proved to be a huge asset for the product reception and the business.

- Developed a highly flexible and **scalable map architecture** supporting use-cases involving various geometries, heatmaps, and editing tools.

- Initiated & delivered the product's **design language** aimed to document 100+ reusable components.

- Worked on **performance optimization** of the application. eg. bringing down the memory consumption of our map having 10k moving markers, by 60%.

- **Mentored team members**, and conducting code reviews, explaining the business use cases, functionalities, and engineering complexities of our flagship product MILE, while scoring a **consistent 100 on the NPS** scale.

Founding Team + Web Lead @ Ziveg — *E-commerce for silver jewelry*

July 2014 - June 2016 | New Delhi

- As the only tech person in the founding team of 4 people, I developed Ziveg's complete **e-commerce website from scratch** (front-end & back-end) using HTML, CSS, JavaScript, jQuery, and backend using PHP and MySQL.

- Developed and shipped the **admin panel** for the operations team. It featured SKU management, end-to-end order, coupon tracking, and chat support.

🔍 KEY HIGHLIGHTS

⭐ **7+ years** of dev experience

⭐ Good **UX and product sense**

⚒️ SKILLS

Programming Languages
JavaScript (ES6), TypeScript, HTML, CSS/Sass, GraphQL, PHP

Libraries & Frameworks
React, Redux, NextJs, Vue, Node.js, Express, Ionic, Leaflet, AngularJs

Tools & Platforms
Git, Webpack, Vercel, Docker, Firebase, AWS

Design
Figma, Sketch, Photoshop

🏆 AWARDS & ACHIEVEMENTS

Speaker @ ng-India 2020 (India's Angular Developer Conference) titled "Creating Native Mobile Apps using Angular"

Winner, NASSCOM Design Awards 2019, Design solutions that are designed to encourage the adoption of intelligent technologies

Winner, Techathon 2019 (Internal hackathon at LogiNext) Created an in-house fully functional chat module in 24 hours.

Employee of the year, LogiNext (2018) & Employee of the month, LogiNext (September 2016)

👩‍🏫 EDUCATION

Delhi Technological University (DTU)

Mar 2012 - Mar 2016 | New Delhi

Bachelor of Technology (Computer Science & Engineering)
